- 459b Barracks, 1798-1805
- 460b "Red" Barracks, c.1807-10

\* There is some question as to which structure is represented by our building 457b on the c.1805 map. Although it is labelled "Chapel", its shape and location bear no resemblance to the 1757 church, and the computer study associated this building with 457b, a storehouse. The delineator of the plan might have mistakenly identified the storehouse as the old chapel or even accidentally deleted the chapel when, in fact, it was still standing.
